

Adrian Blanco

Software Engineer

Experience

Freelance Software Engineer | Jan 2020 - Present

Took some time to travel, now back working freelance.

- **Bontouch | Software Engineer (Contract)**
Jun 2020 - Present | Stockholm

Bontouch | Software Engineer, Platform Lead

Aug 2016 - Jan 2020 | Stockholm, London

Led the development of Coop for Android as platform lead, building one of the largest ecommerce grocery apps in the Nordics from the ground up, serving hundreds of thousands of users.

As platform lead I ensured high technical quality through technical leadership, architecture, software engineering best practices, code reviews, among others.

Relocated to the London office to lead the app experience for the Android platform of the GoAhead bus apps during the final months before release.

Developed a suite of Android apps for Swedish Railways (SJ), used daily by SJ staff to manage and maintain trains across Sweden.

Susumi | Co-founder, Software Engineer

2016 - 2019 | Stockholm

Co-founded a company developing interactive mixed reality experiences using Unity, which were featured in the Swedish National Museum of Science and Technology, among others.

We Know IT | Software Engineer

Oct 2014 - Jun 2015 | Stockholm

Worked as a consultant developing and designing websites using WordPress, PHP and HTML/CSS in close partnership with clients to meet their business needs.

5 Monkeys Agency | Software Engineer

Jan 2015 - Feb 2015 | Stockholm

Developer for Clique, a clothing ecommerce store for both web and mobile platforms using AngularJS and HTML/CSS.

Freelance Software Engineer

May 2012 - Aug 2012 | Stockholm

Worked as a freelance consultant for a real time audio analysis project in partnership with KTH Innovation. I developed both frontend UI features and backend audio features using C++, Java and JNI.

Education

KTH Royal Institute of Technology Master of Science, Computer Science

2011 - 2016 | Stockholm

4.6 / 5.0 grade average

Specialization in Computer Graphics and Interaction
Exchange studies at KAIST, South Korea
