EXPERIENCE

PayPal | Software Engineer (Contract)

Stockholm | Nov 2020 - Jun 2022

- Worked building the AOSP based operating system for the Zettle Terminal hardware.
- Responsible for developing several new payment flows for the Zettle SDK.
- Integrated Venmo payments into the US launch of the Zettle Android app.

Bontouch | Software Engineer (Contract)

Stockholm | Jun 2020 - Nov 2020

- Developed an Android app for a client in the digital healthcare industry, providing doctors visits online through the app.
- Developed Android apps for a client in the logistics industry. This work involved developing hardware device integrations through usb and bluetooth.

Bontouch | Software Engineer, Platform Lead

Stockholm, London | Aug 2016 - Jan 2020

- Led the development of Coop for Android as platform lead, building one of the largest ecommerce grocery apps in the Nordics from the ground up, serving hundreds of thousands of users.
- As platform lead I ensured high technical quality through technical leadership, architecture, software engineering best practices, code reviews, among others.
- Relocated to the London office to lead the app experience for the Android platform of the GoAhead bus apps during the final months before release.
- Developed apps for Swedish Railways to manage and maintain their trains across Sweden.

Susumi | Co-founder, Software Engineer

Stockholm | 2016 - 2019

- Co-founded a company developing interactive mixed reality experiences using Unity, which were featured in the Swedish National Museum of Science and Technology, among others.

We Know IT | Software Engineer

Stockholm | Oct 2014 - Jun 2015

- Worked as a consultant developing and designing websites using WordPress, PHP and HTML/CSS in close partnership with clients to meet their business needs.

5 Monkeys Agency | Software Engineer

Stockholm | Jan 2015 - Mar 2015

- Worked as a developer on Clique, a clothing ecommerce store for both web and mobile platforms using AngularJS and HTML/CSS.

Freelance Software Engineer

Stockholm | May 2012 - Aug 2012

- Worked as a freelance consultant for a real time audio analysis project in partnership with KTH Innovation. I developed both frontend UI features and backend audio features using C++, Java and JNI.

EDUCATION

KTH Royal Institute of Technology | M.Sc, Computer Science

Stockholm | 2011 - 2016

4.6 / 5.0 grade average | Computer Graphics specialization | Exchange studies at KAIST, South Korea

SKILLS

Kotlin | Java | Android | AOSP | C++ | Computer Graphics | Web Development
