4.6 / 5.0 grade average
Specialization in Computer Graphics and Interaction
Exchange studies at KAIST, South Korea

EXPERIENCE

Bontouch | Software Developer, Platform Lead
Aug 2016 - Jan 2020 | Stockholm, London

Led the development of Coop Android as platform lead, building an ecommerce grocery app from the ground up for one of the largest grocery chains in Scandinavia. The app served 200k users and eventually became a significant part of the clients online revenue stream.

As platform lead I ensured high technical quality in projects through technical direction, ensuring software engineering best practices, architecture, code reviews, design guidelines, among others.

Relocated to the London offices in order to lead the GoAhead bus apps for the Android platform in regards to crafting a high quality app experience during the final months before release.

Technical mentor for master thesis interns during their thesis, in partnership with KTH.

Susumi | Co-founder, Software Developer
2016 - 2019 | Stockholm

Co-founded a company developing interactive mixed reality experiences using Unity and Microsoft Kinect, which were featured in installations at the Swedish National Museum of Science and Technology among others.

5 Monkeys Agency | Software Developer
Jan 2015 - Feb 2015 | Stockholm

Developer for Clique, a clothing ecommerce store for both web and mobile platforms using AngularJS and HTLM/CSS.

We Know IT | Software Developer
Oct 2014 - Jun 2015 | Stockholm

Worked as a consultant developing and designing websites using Wordpress, PHP and HTLM/CSS in close partnership with clients to meet their business needs.

Freelance Software Developer
May 2012 - Aug 2012 | Stockholm

Worked as a freelance consultant for a real time audio analysis project in partnership with KTH Innovation. I developed both frontend UI features and backend audio features using C++, Java and JNI.
